Yellowwood	Cladrastis Kentukea	Wisteria like fragrant white flowers

Trees must be kept: **30' from Intersections**
15' from Utility poles
15' from Fire Hydrants

Our Commitment:

Due to our understanding of the care needed to maintain a healthy and sustainable urban forest system, we have made a commitment to plant native species over non-native species and to encourage diversity over monoculture at every opportunity possible. By selecting a diverse variety of native trees, you are helping to support a healthy environment for our children and our children's children.

Thank you!
